Please find below and/or attached an Office communication concerning this application or proceeding.

***Response to Amendment***

Receipt is acknowledged of a request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e) and a submission, filed on 1/19/10. The submission, however, is not fully responsive to the prior Office action because the new claims are related to a different invention. The new subject matter encompasses a timing circuit that using a PPL to measure phases. The previous claimed subject matter was directed to a method of synchronizing two QKD station by encoding quantum signals. The claimed invention cannot sufficiently change from the previously examined invention through a submission filed under 1.114. Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period for reply supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a).
